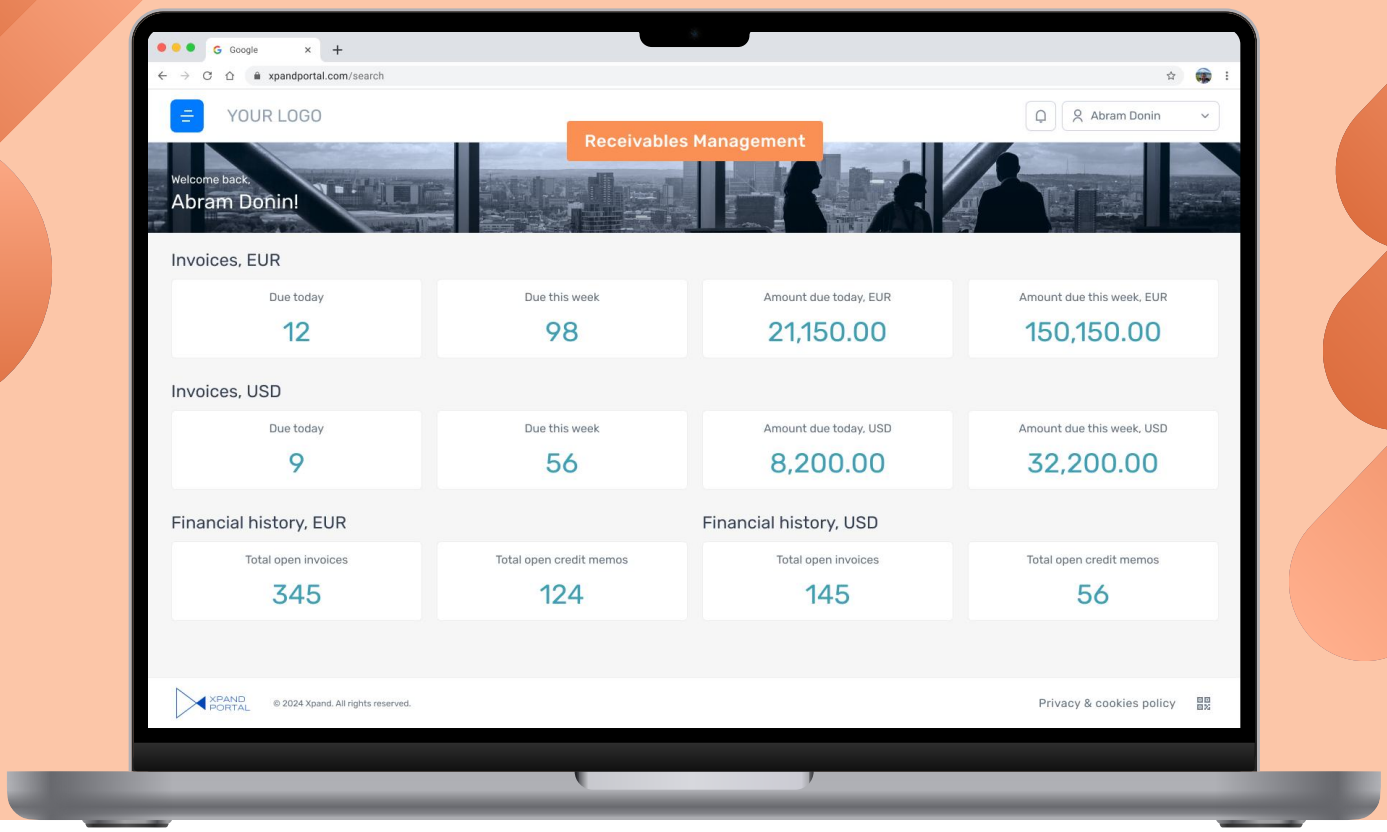
Receivables Management

Be closer to your customer

Developed by Microsoft Partner × Integrated with Dynamics 365 Business Central × Powered by XPAND PORTAL

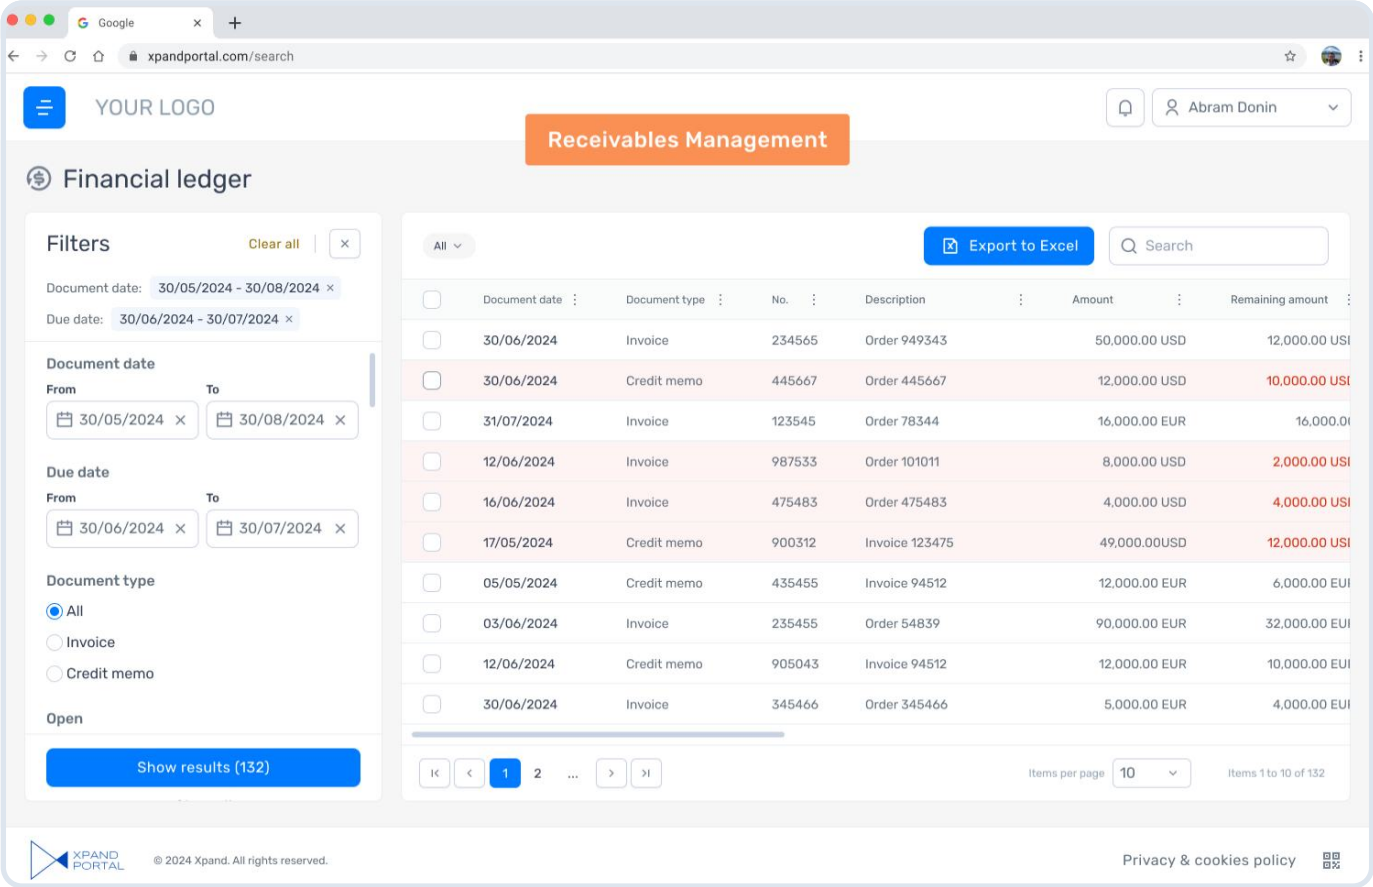


What module solves

9 out of 10 of our customers expressed a desire to simplify their invoicing process. So, we listened, identified recurring patterns, and designed a simple, intuitive interface for the **Receivables Management** module.

No time wasted on customization — within 5-7 days of purchase, you'll be using the ready-to-go module. It reduces routine, manual work for both your and your customers' accounting, finance, or operations teams by minimizing manual processes, supported by helpful built-in automations. It also removes the need for constant back-and-forth communication with clients about open invoices and payments.

Module and Microsoft Dynamics 365 Business Central



The module comes with a pre-configured setup, ensuring all necessary settings for Microsoft Dynamics 365 Business Central are already in place, so you can start using it right away without any additional setup. For easy and secure integration with Business Central, we also use our Xpand Portal Connector, designed specifically to connect the products efficiently.

The Receivables Management module will help you fully leverage your Business Central ERP data, increasing its value through our solution. Plus, it securely provides your customers with role-based access to all relevant accounting information.

Key module functions

- Invoice sharing
- Payment tracking
- Payment reminders
- Reconciliation
- Document sharing

For whom

Businesses seeking to reduce accountant, financial and communication work.

Facts

1 Evolution in line with your growth

This module is the answer to your business's drive for growth and process optimization. It reduces the complexity of managing invoicing communication and gives customers easy access to financial data, improving productivity for both your team and your users, while making cooperation smoother and more transparent.

2 Cost-effective standard solution

Packed with essential, pre-built features that accountants and finance managers rely on regularly, the Receivables Management module is quick to implement, allowing you to start working with it almost immediately (up to 5-7 days) and benefit from its well-thought-out functionality.

3 More organized account receivables flow

The Receivables Management module allows your external users to track invoices and payments in one place, cutting down on back-and-forth communication and making financial information more accessible.
